

The C. E. Weldon Public Library is appealing for a waiver of the E-Rate 471 Deadline due to a form issue. The form was completed and certified on the week of May 1st. However, today, when I entered the USAC website it showed a task and that the certification had not been completed. Again, we completed this certification 2 weeks ago so I am not sure why it is now showing as incomplete, however, as we are now after the deadline it will not let us resubmit the certification. Please allow the waiver to the deadline due to what appears to be a technical issue.
